Job Title: Business Strategy Intern

Company Description:
SnappyScreen is a sunscreen application system and a new, easy and effective alternative to the tedious manual application of sunscreen. The device disperses a fine mist that completely covers the user with sunscreen from head to toe in seconds. The spray nozzles eliminate blotchy uneven tans and reduce the risks of sunburn and skin damage. All you need to do is stand in front of the machine, select your SPF and let SnappyScreen do the rest!

The founder, Kristen McClellan started SnappyScreen during her freshman year at Cornell University. Since then, SnappyScreen has rolled out devices to 4 and 5 star hotels across the U.S., Caribbean and Mexico. SnappyScreen has been featured on CNBC, Business Insider, Fast Company, Allure Magazine and many more as the future of sunscreen application. Kristen was recently named to the 2019 Forbes 30 Under 30 List in the Manufacturing category for innovating sun care.

The position will be in New York, NY with travel to the Caribbean and other SnappyScreen locations in the United States.
