Summer 2020 Data Analyst Intern

Till is a rapidly growing, venture backed startup that innovates financial products for residential rental communities. By partnering with landlords, Till transforms resident’s ability to pay, stay, and thrive in their communities.

The analyst intern will gain hands on data management experience by:

- Helping develop reports and analysis for key business decisions
- Creating data visualizations
- Managing and designing the reporting environment, including data sources, security, and metadata
- Providing quality assurance of imported data
- Supporting initiatives for data integrity and normalization
- Troubleshooting the reporting database environment and reports

Position Summary:

- Title: Data Analyst Intern
- Location: Washington, D.C.
- Length: 5-8 weeks
- Reports to: Product Manager
- Internship fulfills the requirements for Wake Forest Center for Entrepreneurship stipend and School of Business Internship

Qualifications:

- We look for all team members to be A-players in their respective role, leaders, intellectually curious, communicative, relentlessly resourceful, and results oriented
- Excellence through education, work, and/or extracurriculars
- Strong track record taking projects from zero to one with extreme ownership for good or bad results
- Strong written, verbal, and presentation skills
- Lifelong learner who strives to improve their craft and expand their interests
- Strong sense of adventure and humor
- A passion for financial inclusion, fintech, and propTech

Desired prerequisite skill set:

- Pursuing a degree in computer science, business, economics, or another relevant field
- Demonstrated experience in handling large data sets and relational databases
- Ability to use or quickly learn data visualization tools (Power BI, Periscope), data analysis tools (R, Python), and database querying languages (SQL)
- Quick learner who says “yes” more often than “no” and is ready to contribute on Day One

Start-up environment: A high level of autonomy, resourcefulness and ownership is required to be successful. Roles and responsibilities can evolve as fast as you can.
